

T1000

Improve on-shelf availability.

A push button dispenser that is simple to use and prevents sweeping.

InVue's T1000 is the only self service fixture in the market that increases sales while preventing theft. Intuitive dispensing helps you sell more merchandise with no associate assistance. The T1000 decreases visual out of stock and The easy to use push button creates an optimal customer

experience. The T1000 is a single position dispenser with a time delayed response preventing sweeping. Uniquely designed for easy installation and works with any planogram.

FEATURES AND BENEFITS

- 1 Simple push of a button dispenses one package
- 2 Unique design allows merchandise to be at the forefront and decreases visual out of stock
- 3 Time delay of 5 seconds between dispenses deters thieves
- 4 Individual merchandise positions increases anti-sweep security
- 5 Integrated price tag for a simple and clean display

FEATURES AND BENEFITS (continued)

- 1 Merchandising space gives customers an intuitive way to replace unwanted merchandise, meaning merchandise stays off the floor
- 2 Interchangeable coils let you maximize merchandising space for different sized packaging
- 3 Interchangeable rods allow you to leverage the same dispenser on multiple displays (ie: pegboard, slatwalls and mounting bars)
- 4 No proprietary key necessary for installation
