# Software to increase sales, decrease internal theft

Access Manager software helps increase retailers profits by reducing internal theft. Delivered through a cloud based enterprise system that logs IR Key device interaction making it easy to detect associate activity that is suspicious with access anytime and anywhere.

Using an intuitive user interface, individual associates are enabled with access to the entire store, a department or individual InVue device.

Access Manager works with multiple InVue devices across all security solutions.

InVue

Overview

PROFITABILITY
- When internal theft decreases and store revenues increase, store profits rise
- Access Manager is a single investment that provides solutions to two significant retailer measurements

AUDITING & ZONING
- Controlled employee access to the entire store, specific departments or even particular displays
- Data collection from the keys offer a view into all team member activity

MEASUREMENT – STORE REVENUE RISES
- IR Key access allows ease of use by the store team, reducing customer wait times in receiving merchandise locked away
- Associates therefore gain more time to sell and assist more customers, in effect increasing conversion rates

MEASUREMENT – REDUCE INTERNAL THEFT
- Theft within store walls can be difficult to track
- Access Manager provides a bird's eye view of when merchandise and display devices are being access and by whom

Increased Profits

Profitable Store Management

Auditing & Zoning

Increase Store Revenue

Key Benefits

CLOUD BASED DATA
- Data collection stored in the cloud, can be accessed anywhere, anytime
- Historical data can be assessed easily ove time

STORE FORMAT(S) NAMING
- All zones & devices are named consistently across the estate
- Predetermined zones are defined for specific store formats

SYSTEM HIERARCHY
- Segment employee interactions by Headquarters, Division or Individual Store
- Updates can be made easily to the hierarchy

SINGLE WEB ADDRESS
- Access Manager permissions at HQ and Store
- Automatic role assignment at HQ

InVue

Access Manager

## WHO IT WORKS WITH:

Associate access can be set at different levels

STORE MANAGER	TEAM MEMBER	SEASONAL EMPLOYEE
The entire store	A department	A single lock/position

HOW IT WORKS:

The IR3 Key collects the data that allows Access Manager to share who accessed a position and when.

KAS connected to Ethernet Port	Data sent to Access Manager cloud storage	Data accessed anywhere, store or corporate
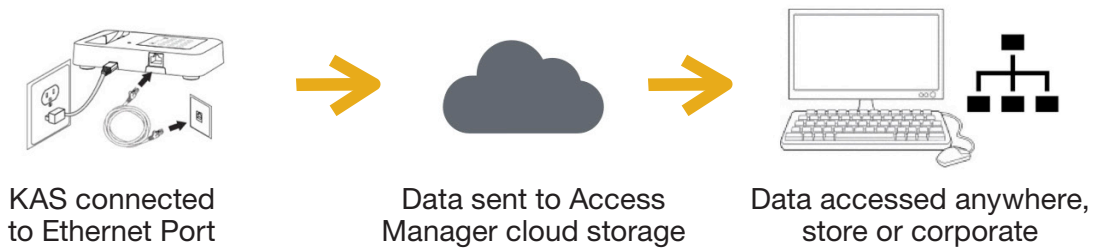

WHERE IT WORKS

The IR3 Key works across all InVue's major product lines

Handheld Electronics	Wearables	Electronic Accessories	Smart Locks	Commercial Solutions
